

Hibiscus

Hibiscus is a genus of flowering plants in the mallow family. Hibiscus tea is an herbal tea that has a tart flavor similar to that of cranberries and can be enjoyed both hot and cold. Dried hibiscus is edible, and considered a delicacy in many countries. It can also be candied and used as a garnish, usually for desserts.

Our *Khair* brand and label is the hallmark of guarantee that you are buying a product of the highest quality.

General Description

Name: : Hibiscus / Hibiscus sabdariffa

Origin: Egypt

Quality and specifications:

Flowers , TB Cut , Slice , Powder

Season :

Fresh: from APR to OCT

Stored: rest of the year

Standard Packing:

Polypropylene Bags

Powder Packing:

Polyethylene + Polypropylene Bags

Weight : 10 Kg - 20 Kg - 25 Kg

Khair®
